

Instructions for In-person Worship

The service will also continue to be streamed live on Facebook.

Worship Instructions:

- Please plan to arrive early. It will take us a while to get everyone seated.
- Wash your hands thoroughly prior to leaving home. The CDC recommends hand sanitizer when soap and water are not readily available. 70% alcohol hand sanitizer will be available but should not be relied upon.
- Please park as far away from the front entrance of the sanctuary as your physical condition will allow, leaving closer spaces for those who need them more.
- Check in at the pop-up tent. Those of the same residence should stay in line together and sit together. You will wait in line by the orange stakes.

- At the tent, your attendance will be recorded so that we may notify you if there is any discovered potential for exposure.
- A 3-ply disposable facemask (made in USA) will be given to you to be worn during the entire worship service. Children under 2 should not wear masks.
- Remaining in your group, maintain 6' separation, and proceed to the entrance.
- You may drop your offering in the silver pail on the vestibule table.
- When you enter the sanctuary please follow the directions given by the usher/pastor. You will be directed to proceed down either the center or a side aisle to the pew closest to the front that is not blocked by caution tape.
- Please avoid physical contact and practice verbal welcoming.
- When we dismiss, the usher will dismiss folks beginning from the back. Please remain seated until you are dismissed by the usher.
- The restrooms will be open but only use them if absolutely necessary or to wash your hands.

- The doors on the cemetery/playground side of the building will be locked.
- Due to masks retaining heat around the face, the air conditioning will be set lower than usual.

Special Considerations:

- We understand that it may be difficult to wear the mask continually. Should you need to remove it, please walk outside before doing so.
- If you are unable to use the front steps to enter the sanctuary, you may enter from one of the side doors adjacent the accessible parking spaces. Masks will be available from Pastor David who will be at the front.

We are excited to resume in-person worship, but we are also taking the risk of COVID-19 exposure very seriously; we hope that you will as well. We are making what we believe to be our best efforts to keep us all safe; but, please be aware that we cannot guarantee that you will not be exposed to someone who has the virus. We encourage you to use your

absolute best discretion as to whether you should risk being present.
